

Table 2 – Odds Ratios for fixed effects by States

Effects	Odds Ratios				
	RJ	SC	MT	AL	AM
1st Level (Respondent and Household)					
Age	1.007	1.011	1.018	1.017	1.006
Sex					
<i>Male / Female</i>	1.258	1.292	1.188	1.258	1.265
Know to read and write					
<i>Yes/no</i>	0.225	0.146	0.289	0.425	0.194
Color or race					
<i>White / Non white</i>	-	0.842	-	-	-
Reported age					
<i>Date of birth / Stated age</i>	0.616	0.505	0.303	-	-
Relation with household reference person					
<i>Reference person or spouse/other</i>	0.887	0.737	-	-	-
log (per capita household income)	0.874	0.841	0.898	0.898	-
Number of bathrooms	0.872	0.857	0.895	0.827	0.888
Type of questionnaire					
<i>Short / Long form</i>	-	-	1.272	-	-
Reference person in household					
<i>Only one / More than one</i>	-	-	1.175	-	-
<i>Not reported*/ More than one</i>	-	-	1.094	-	-
Electricity					
<i>From provider/Other form or non-existent</i>	-	-	-	-	0.633
Sewage disposal					
<i>Piped sewage system / Other form</i>	-	1.159	-	-	-
Type of housing unit					
<i>One-person or nuclear family / Other form</i>	0.839	0.757	0.796	-	-
Time of interview					
<i>Before 6 pm /After 6 pm</i>	0.896	-	-	-	-
2nd Level (Enumerator)					
Educational Attainment of Enumerator					
<i>Elementary or high school/ Some college or college degree</i>	-	-	-	-	1.221
3rd Level (Supervisor)					
Educational Attainment of Supervisor					
<i>High school / Some college or college degree</i>	-	-	1.231	-	-
Age of Supervisor	-	-	-	1.014	-
