

|                |                                                            |
|----------------|------------------------------------------------------------|
|                | <b>1 Arithmetic - terminology</b>                          |
|                | 4 Arithmetic - fractions                                   |
|                | 17 Algebra - expansion and factorisation of expressions    |
| <b>61 - 70</b> | 19 Arithmetic - scale drawing                              |
|                | 22 Probability - tree diagram                              |
|                | 24 Arithmetic - approximations                             |
|                | 37 Arithmetic - percentage increase                        |
|                | 39 Graphs - solution of simultaneous equations graphically |
|                | 10 Arithmetic - sequences                                  |
|                | 13 Algebra - factorisation of quadratic functions          |
|                | 26 Trigonometry - 2 right angled triangles                 |
| <b>51 - 60</b> | 28 Trigonometry - Sine rule                                |
|                | 30 Trigonometry - 3D problem                               |
|                | 34 Graphs - speed/time graph                               |
|                | 40 Statistics - cumulative frequency graph                 |
|                | 11 Graphs - points on a curve                              |
|                | 12 Algebraic powers                                        |
| <b>41 - 50</b> | 20 Probability                                             |
|                | 32 Graphs - graphical properties of the straight line      |
|                | 33 Graphs - properties of a cubic curve                    |
| <b>31 - 40</b> | 29 Algebra - sum of algebraic fractions                    |
|                | 8 Arithmetic                                               |
| <b>21 - 30</b> | 25 Arithmetic - cumulative errors                          |
|                | 35 Vectors                                                 |
